

Fosdick Flyers,

Dan Neil (Avionics Shop, Inc.) today informed me of a situation affecting life at Tacoma Narrows and Thun Fields.

We users will be inconvenienced slightly but those businesses "behind the gates" will suffer.

In addition, certain authority being proposed to bestow upon the Director of the Public Works and Utilities Department seems excessive - although I admit to ignorance of the usual administrative authority of such government agencies.

Please spend a few minutes reading about it at, Avstar Aircraft of Washington, Inc. Click on "news" then "Pierce County is Running Amok!"

Should you have strong feelings about the situation the next County Council meeting is at 1500, 13 Jan 2015. Location is 930 Tacoma Ave. S. Room 1045.
